## OVERVIEW

While getting **certified**, plumbers-in-training learn about everything in a home or business that involves water and gas. Pipes, fixtures, appliances and more are all under a plumber's jurisdiction. If pipes leak, a plumber needs to know how to repair or replace them without causing damage to the property.

**Job growth in plumbing is huge** for a few reasons. First, as population grows, more construction takes place. More construction means more plumbers. Second, many people no longer want to fix the minor plumbing issues that former generations would fix themselves, so they hire a professional to do it for them. This is great for plumbers, as it means more jobs!

*Job growth in plumbing is huge.*

## EDUCATION

RESIDENTIAL/COMMERCIAL  
PLUMBING CERTIFICATE

**14 CREDIT HR.** (1 SEMESTER)
