OVERVIEW

If you like working on cars and trucks, it's a good time to consider becoming a diesel service technician. In South Carolina, diesel techs make over **\$44,000/year**, and more experienced technicians can earn \$72,000 or more annually.

Diesel engines require maintenance that is very different from regular gasoline engines, and the level of skill required means that diesel mechanics need specialized training. Many diesel service technicians are already certified automotive repair professionals looking to advance in their careers.

It only takes **2 semesters** to become a **Diesel Engine Performance Certified Technician**. This certification will make you eligible for a wide selection of diesel tech jobs. If you're looking for further training, York Tech offers an Associates in Applied Science for **Diesel Engine Performance** that can be completed in only 4 semesters. Get started today!
