OVERVIEW

If you're interested in a career in logistics & supply chain, you can start with an associate's degree from York Technical College. This is a financially rewarding degree, with an **average salary of \$71,960 in South Carolina**. If you're organized and thrive in a fast-paced environment, a career in logistics & supply chain management may be right for you.

If you like the idea of managing people, products, and raw materials, **logistics & supply chain might be the career you've been looking for**. As a logistics manager, you are in charge of a company's purchasing and distribution, usually working partly in an office and partly in a warehouse. Whether you want to be part of a team of supply chain professionals in a global organization or be the logistics specialist at a small company, you can start your logistics career at York Technical College.

Logistics managers get things from point A to point B. This requires a lot of planning and forecasting so that you manage product inventory as efficiently as possible. Logistics managers need to be **organized and analytical** so that customers can receive the correct products when they expect them. As people increasingly do more online shopping, supply chain professionals are becoming more integral to companies of every size and industry.

Make sure customers get their orders when they need them.
