OVERVIEW

Line workers do tough work and are **paid well** for it, typically making \$25-\$35 an hour. That adds up to \$55,000 to \$65,000 per year on average!

If you want a reliable career **working with your hands** in the great outdoors, utility work is for you! Every community, regardless of size, needs line workers to keep the power running where it's supposed to.

Becoming **certified** as a utility line worker is easy to do. Basic certification only takes one semester, and if you want an advanced certification, that only takes one more. Classes will teach you about safety protocol and regulations, with tons of work training in the field.

A reliable career working with your hands in the great outdoors.
